THE SENATORSHIP.

We are fully of the opinion that Mr. COWAN's successor in the Senatorship ought to be taken from the west. It is manifest he will not be. Mr. WILLIAMS is the only man in this section who has been prominently spoken of in connection with the succession; but, though backed by a number of earnest and influential friends, no enthusiasm has been enkindled in his behalf. Confessedly of superior intellectual ability and training, and of sterling honesty, he excites admiration rather than friendship. We do not hear of even one member of the Legislature who is seriously inclined to support him.

Mr. STEVENS is a magnetic character—a born leader—and if he was younger and less infirm, would distance all his competitors. In capacity to deal with ideas, he does not surpass Mr. WILLIAMS, but, is greatly superior to him in that prime qualification of statesmanship, the ability to manage men and affairs. He has a few members instructed for him, but is not likely to become formidable.

Col. FORNEY has great ability, combined with great energy. He excites enthusiasm, yet fails to bind men to him in such a manner as to attach themselves to his fortunes.

Mr. GROW can command a few votes. Of only average ability, he is pre-eminently true and trustworthy and experienced.

The Republican majority in the Legislature is so large that if the members specially devoted to the gentlemen already named were to unite on either of them, or on a new man, they would fail to hold the balance of power. The contest, therefore, narrows down to a choice between General CAMERON and Governor CURTIN. One or the other of these men, it seems to us, will be the Senator; which we do not undertake to say. Each of them has been tried, and under circumstances to test his peculiar qualities. Each has warm friends and bitter enemies. Neither of them is perfect. In point of pure reason—in the faculty of dealing with ideas—each of them has many superiors. In the power of dealing with men and matters each has demonstrated, in different ways, the possession of unusual gifts. Governor CURTIN has great popularity with the masses of the loyal people of this Commonwealth. This was attested during the recent canvass by the receptions accorded him at all the mass meetings he attended. Accustomed as we have been, for a quarter of a century, to popular assemblies in Pennsylvania, we can truly say we have seen no enthusiasm approaching that which his presence universally awakens; but, outside the State, his popularity is greater than inside. General CAMERON, on the contrary, has a power ful hold on numerous sections of leading and influential men. These are intensely devoted to him, and always ready for any amount of exertion or sacrifices to promote his elevation.

The friends of Gov. CURTIN claim for him a clear majority of all the members. We do not judge so. It seems to us that while the adherents of WILLIAMS, STEVENS, FORNEY and GROW have not a balance of power between the two main contestants, they could by uniting in a body, with either of them, turn the scale in his favor. This they are not likely to do. After the first or second ballot, it seems probable they will divide, perhaps in unequal proportions, on CAMERON and CURTIN, and it is this contingency that imparts animation to canvass.

In Allegheny county popular sentiment is greatly divided between CAMERON and CURTIN. The cause of each is warmly espoused and opposed. Hence, the delegation is divided, and likely to remain so. According to the latest reliable reports a majority of them are for CAMERON.

EDITORIAL BREVITIES.

A MEETING of the leading citizens of the peninsular counties of Virginia, was held on Saturday at Richmond. Resolutions were unanimously adopted, declaring that the Legislature, which meets on Monday, shall immediately call a convention, to frame a new constitution adapted to the new order of society, and relieve the people from their indebtedness in ratio to their present property, as it would be a shame to make their successors bear the losses.

The Mass Welcome.

WASHINGTON, December 2.—At the Republican caucus last evening, among other propositions discussed was one that a law should be introduced and passed requiring a meeting of the Fortieth Congress on the 5th of March next, immediately upon the termination of the present Congress. This proposition met with general acceptance, and the Republican members generally are understood to be in favor of it. In the present temper of Congress, as indicated by the members already arrived, there is little doubt that such a law will be passed before the termination of the thirty-ninth session.

The Republican members of Congress express little hope of any amicable arrangements of the difficulties between that body and the President. The reports to the effect that the President was disposed to make concession and calculated to diminish the disagreement with Congress on important matters, are without foundation. There is probability that Congress may adjourn to-morrow before the President's message is received, in order to respond to the mass welcome and in that case, of course, the message will go over till Tuesday.

WASHINGTON, December 2.—The Committee appointed to prepare a programme of action for the Radical caucus on Wednesday evening have their proposition all cut and dried. The bill they will offer for the approval of the caucus is very similar to the one offered in Congress by Hon. Thaddeus Stevens. It contemplates an abolition of the present State Governments in all the Southern States, on the ground of their unconstitutionality, and provides for the appointment of a Commissioner for each State, who shall have power to appoint the civil and military officers necessary for the preservation of peace and good order. The Commissioners are to call Conventions for the purpose of adopting Constitutions with a view to admission into the Union. There is a difference of opinion as to the right of franchise. Some are in favor of only loyalists voting; some in favor of Congress designating who shall and who shall not vote, while others advocate allowing all those to vote who are now qualified under state laws. The constitution adopted by these conventions, are to be submitted, but only those to be allowed to vote who are enfranchised by the constitutions, voted on as was the case in Maryland. If the constitution be adopted by these voters then the States are to be readmitted. If rejected then rejection will be followed by territorial government. The Commissioners to be authorized to organize the militia, including the colored population, to aid in carrying out the provisions of the bill, and if called into the service are to be quartered on those rendering the call necessary. Such are the leading points in the programme which will be presented for the approval of the Radical caucus, and the Southern loyalists express strong hopes of success. The names of the committee are Messrs Stevens, Washburne, Schenck, Hart, Garfield, McRuer, Pike, Orth, and two others not known.

SHIP AND STEAMER COLLISION.

Arrival from Aspinwall.

IMPORTANT SOUTH AMERICAN ITEMS.

NEW YORK, Dec. 2.—Off Quarantine Station, Sealin Island, the ship Kate Dyer of Portland from Callao, with 1700 tons of guano on board, was run into last evening by the steamship Scotland, hence for Liverpool, taking the Kate Dyer on the starboard bow, cutting her completely through and causing her to sink, in an instant, giving those who were saved barely time to get into boats. Thirteen of the crew went down with the ship. The Kate Dyer had a pilot on board who says, as does the Captain also, that they saw the steamer about fifteen minutes before she struck them, and had she kept her course the collision would have been avoided.

The Scotland had her bow stove, and after picking up the remainder of the crew of the ship headed back for New York, but the leak gaining rapidly, she was compelled to run ashore off Sandy Hook to prevent sinking, where she still lies this morning. At five o'clock she was half full of water and her pumps useless.

THE CONDEMNED FENIAN PRISONERS.

A New Trial Refused.

TORONTO, C. W., December 1.—Judgment was delivered this afternoon in the cases of Lynch, McMahan, Slavin, and School. There were not many present in court, and no unusual interest in McMahon's case. The Chief Justice expounded, at length, the law under which the prisoner was tried, after disposing of objections raised by the prisoner's counsel to the court's indictment. His Lordship read the evidence given at the trial, showing the prisoner's connection with the Fenians, and stated that, after careful and deliberate consideration, he agreed with the learned Judge who tried the case, that although the prisoner came over with the Fenians, ostensibly for the purpose of administering spiritual consolation to the wounded, he was aiding and assisting in their acts, and was equally guilty. Affidavits put in by the prisoner were then reviewed, and their insufficiency for granting a new trial dwelt on. In conclusion, His Lordship stated that he was of the opinion that all the grounds taken by the prisoner's counsel for granting a rule had failed, and that, had it been granted, it would merely have been wasting time and words to no purpose, as the court would not have made it absolute. After most careful consideration he could arrive at no other decision than refuse the rule.

Mr. Justice Hagarty then delivered judgment in the case of the Queen vs. Lynch. Having recapitulated the objections *seriatum*, He stated that he perfectly concurred in the views which had been expressed by the Chief Justice, and having devoted much care to the study of all the different points involved and objections raised, he had come to the decision that no sufficient grounds had been made out to warrant the Court in granting a rule *nisi*.

Mr. Justice Morrison delivered judgment in the case of the Queen vs. School. He stated that he perfectly concurred with the learned Chief Justice and Mr. Justice Hagarty, and that he had no doubt of the law on the subject, and must, therefore, refuse the rule.

Mr. McKinzie, Q. C., then moved for the case to appeal.

The Chief Justice said that the Court had anticipated such a motion; having refused the rule they did not consider they would be warranted in granting the application.

Chief Justice Richards then delivered judgment in the Court of Common Pleas in the Queen vs. Slevin, to grant the rule *nisi* on the same grounds as those urged by his learned brethren on the Queen's Bench.

CRIME AND ITS REWARD.

Heavy Sentences in Philadelphia.

PHILADELPHIA, Dec 1.—To-day the Court of Quarter Sessions, Judges Ludlow, Allison and Pierce on the bench. imposed sentence on all the prisoners convicted of various crimes in the Court of Oyer and Terminer. Mason and Roberts, the noted professional burglars, each received five years in the county prison; William A. Maguire, the murderer of Maggie Baer, at the Continental Theatre, in 1864, was sentenced to eight years and six months imprisonment in the penitentiary; Newton Champion, the murderer of Mary Kearney, in June last, was sentenced to be hung. Judge Allison imposing the sentence. The scene was of the usual solemn character. Champion paid no attention to it, but during the whole of the impressive remarks of the Judge, marched up and down the dock, his eyes fixed on vacancy. He has heretofore sought to create the impression that he is insane.

The Message.

LOUISVILLE, December 2.—The *Journal* has advices that the President's message will be conciliatory, and he will endeavor to avoid the quarrel with Congress, and throw on that body the responsibility of relieving the country of its present difficulties. It is understood that the transmission of the message has been delayed by the recent intelligence from the French Government, which led to the modification of the message.

Additional Telegrams on Fourth Page.

The Murder of Two Pennsylvanians.

The Lancaster *Inquirer* has the following: On Sunday last, Mr. Jacob Zook received a telegram signed by P. E. Upton from Vicksburg, stating that his two sons, Noah H. and Abraham H., were missing and that it was supposed they were murdered. These two gentlemen, long and favorably known in this county, left our county for Mississippi last spring, and together with a Southern man, leased a cotton plantation about twenty miles from Vicksburg. They had made the hotel of a Mrs. Upton in Vicksburg, their headquarters until all their cotton was to be gathered, when they started out for their plantation, designing to remain there until it was all gathered ready for market. For the past three weeks their parents here had received no intelligence from them until the news came that they were missing. A second dispatch stated that the body of Abraham had been found, stripped, robbed and horribly mutilated. No trace of Noah has yet been found.

Noah was the elder of the two, a widower and leaves a family of young children in this city. Abraham was a single man. Noah was a clerk in Washington for a number of years, and at one time, a few years ago held a subordinate office at the State Capitol. Both brothers were intelligent, well-educated enterprising business men, ardent Republicans in politics, and thorough gentlemen. Their loss is deeply deplored. No action for the apprehension of their murderers has yet been taken by the civil or military authorities. We believe a number of gentlemen intend leaving for Vicksburg, to look after the property left by the deceased.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON THIRD PAGE.)

Sudden Death of a Colored Man—Suspicions of Poison—Coroner's Inquest.

On Saturday afternoon, between three and four o'clock, a colored man named Samuel Williams, died at the residence of Benjamin Donaldson, another negro, residing at No. 188 Webster street. The deceased resided at Cincinnati, where he had a family living. He had been fireman on the steamboat Lorena, and about two weeks ago was paid off and discharged in this city. He was a stranger here and went to Donaldson's to board a few days. On the Friday afterwards he was taken sick with peculiar symptoms, and Saturday of last week, died as stated. When he was taken sick, he said that a colored woman named Ann Eliza Washington, living near Donaldson's, had given him poison in a drink of whisky. He continued to assert this, and gasped it out to Mrs. Washington herself only a short time before he died. Information of these facts was conveyed to the Mayor, and on Saturday evening Mrs. Washington was arrested and locked up to await investigations. Yesterday afternoon, Coroner Clawson empannelled a jury and Dr. G. L. McCook, assisted by Doctor Umbstatter, made a post mortem examination of the remains, the investigation being conducted at the Mayor's office. The testimony elicited was as follows:

Samuel Donaldson, (col.,) sworn—Live at the corner of Webster and Roberts streets. Am a butcher. Work at Adam Berry's. The deceased is named Samuel Williams. He came up on a steamboat eight or ten days ago, and came to my house to stay. Was not sick then. Went over to the house where Ann Washington lives the next day after he came to my house, and was sick when he came back. Don't know just what ailed him. He was over there several times afterwards. After he was sick he told Ann Eliza that he had been poisoned, and she had given him the dose. This was on Thursday or Friday. Didn't say what night he had been poisoned. He was so feeble that he could only speak very slowly. He swelled up in the feet and legs, but did not cramp. He attempted to vomit, but could not. He was pretty sick for five or six days before he died. He died on Saturday afternoon, I was not there at the time, and do not know what hour he died. No doctor came to see him. Saturday morning he sat up, but was very bad. When he told Ann that she had poisoned him she denied it. I got no money from him, and saw no money in his possession. He said he only wanted to stay at my house a day or two until he could get away.

Rachel Donaldson (colored) sworn—Am the wife of the first witness. Deceased came to our house about two weeks ago; said he was a married man and wanted to stay a few days. He was perfectly well. A few days after that he said he had an awful pain in his head. He had just been over to the other house; he had been over there several times before; and said he had won six dollars at cards the day after he first came. He died eight days after he was first taken. The night he complained of being sick he staid in our house all night. The next day they sent for him to come over again, and when he came back he was perfectly crazy with his head. This was at bed time. The next day he was taken with a pain in his stomach and threw up several times. He did not say anything that day. His feet commenced to swell. Rachel Blackson came over to the house and talked with him, and I heard him say "Mrs. Washington gave the poison to me in a tumbler of whisky." I went in and asked him about it, and he told me too that he had been poisoned by Ann; said he didn't want any doctor, but wanted to go home to his wife at Cincinnati. This was on Wednesday or Thursday. The night before he died I sent for Mrs. Washington; I asked him if she was the one who did it; he looked at her and said she was; he then told her to her face that she had poisoned him; she asked him why he thought so; he said he felt sick as soon as she gave him the whiskey; the next day he repeated the charge; Obadiah Maloney, who raised Mrs. Washington, came over and urged Mr. Williams, as being on his dying bed, to tell whether Annie poisoned him; he was panting for breath, but gasped out that she did poison him; don't know whether the deceased had any money.

Sarah Ann McKenzie (colored), sworn—Live on the corner of Arthur and Duncan streets; last evening I went up to Mrs. Donaldson's; asked Mr. Williams what he thought was the matter with him; he said Ann Eliza Kinney had poisoned him; (Kinney was Mrs. Washington's maiden name;) he said: "She came over after me and I went over and took a game of cards with her; I won everything before me, and then the drink came; the minute after I drank I felt so bad I didn't know what to do." Those were his words; I tried to flatter him and make him believe he had consumption, but he would not believe it.

Dr. G. L. McCook, sworn—Made post mortem examination of the deceased; observed a dropsical condition of the feet and ankles, extending to the knees; in opening the chest I discovered the heart to be of extraordinary size, as large as that of a bullock; the right lung was very considerably diseased; it was broken down and filled with pigment; from right lung I took an irregular piece of black, hard substance, as large as a minnie ball; it is a calcareous substance surrounded by pigment; the whole lung seemed similarly filled; the spleen is broken down in substance and filled with matter; the stomach was also broken down and presented a very peculiar appearance on the inner surface, as if it were covered with adipose tissue; the peritoneal covering of the bowels, has been subject to severe inflammatory action, and is softened and easily torn, being thoroughly disorganized. The right kidney I found to be about twice its usual size and weight. This diseased condition will account for the dropsical appearance of the feet; don't think I ever made an examination in which I found the traces of more extensive disease than in this case. Whether poison was administered or not, there was sufficient organic change to produce death without poison. The deceased has been a thoroughly diseased man, and must inevitably soon have died of the disease. There are traces of destructive inflammation which may or may not have been produced by poison.

At this point the inquest adjourned to convene on Wednesday evening at seven o'clock, at the Mayor's office. The accused is still in the lock-up.

A Strange Case.

In Saturday morning's issue we noticed the arrest and committal to jail of David Stewart, charged, on the oath of his sister-in-law, Mrs. Stewart, before Justice Ammon, of Birmingham, with burglary and attempted arson. On Saturday morning in the court of Quarter Sessions, W. C. Moreland, Esq., counsel for Stewart, made application to have the amount of bail fixed by the court, the Justice having refused to receive bail. For information of the court, Mrs. Stewart, the prosecutrix, was called, and made a statement under oath. She said that on Wednesday morning she was aroused by hearing a noise in her room, and on looking up discovered a man with his face partially covered with a handkerchief. From the clothing and features she felt convinced that the accused was the one she had seen in her room. She also stated that a number of articles were carried off, some of which were recovered and in a vacant lot near the school house on the following morning. She further stated that she has been subjected to constant depredations committed by her husband, and that on Friday morning an attempt was made to burn down a new house which she is just erecting, and into which she expected to move to-day. She was a widow when she married John Stewart, the brother of David. He soon became dissatisfied with her and deserted her. Since that time, as she alleges, he has been persecuting, coming to her house frequently and creating gross disturbances and annoying the whole neighborhood. Mrs. Stewart has succeed in purchasing some property and leasing the property on which her new house stands.

Mr. Moreland, on behalf of David Stewart, stated that on the trial the accused would prove an irreproachable character, and would also establish a clear *alibi*, having been at home in this city during the entire night on which the alleged burglary was committed. He further intimated that the prosecution was prompted by malice. Mr. Aughinbaugh, counsel for prosecutrix denied the assertion, and stated that Mrs. Stewart had been terribly persecuted by her husband, who is now applying for a divorce on some grounds, and that the present prosecution was instituted by her from the advice and urgent solicitation of neighbors who were cognizant of the facts of the case. He spoke in the highest terms of the character of the lady.

After consideration, the Court fixed the bail at $1,500. The bail was immediately produbed, and the accused was released.

Killed by Black Damp.

The *Miner's Journal* has the following: On Tuesday last two miners, Englishmen and brothers, named Samuel and Randolph Harrison, went into an air-hole at the Mill Creek mine of Mr. George W. Snyder, to get their tools. Considerable time elapsing and they not coming out, Mr. Edwards, inside boss, and two others went in, tying ropes to their bodies, so that if one fell the others could drag him out. After considerable difficulty and being nearly suffocated, they found the dead bodies of the brothers, the younger grasping the elder as if he had attempted to drag him out, when he was overcome by the noxious gas. One was twenty-one, the other twenty-six years of age. Both were married, and leave families in destitute circumstances.

The Cross Cut Rail oad.—The grading of the Cross-cut railroad is finished from the Lake Shore railroad to Mayville, at the east end. At the Corry end, the track is laid some twelve miles, or beyond Corry. The iron, ties, &c., are on the ground, and it is thought that the track will be all laid in January next.

It is no Experiment, to purchase one of Wheeler & Wilson's Improved Lock Stitch Sewing Machines, as they are warranted perfect—will sew the finest mull as well as the heavy beaver cloth, and full instructions are given in their use free of charge. Salesroom, 25 Fifth street.

Horrible Accident.

Coroner Clawson was summoned yesterday, to hold an inquest on the remains of an unknown man, found killed and shockingly mangled, on the Allegheny Valley Railroad. At about two o'clock yesterday morning, Michael Shay, occupying a shanty on the Allegheny Valley Railroad, a short distance above the Sharpsburg bridge, happened to be up, and heard a man walking up the track. About fifteen minutes afterwards, a stock train, drawn by engine No. 8, came rushing past on its way to the city. The man that Shay heard was undoubtedly the unfortunate victim of the accident and was killed by this train. At seven o'clock in the morning, John Chambers, a watchman at one of the refineries' thereabouts, discovered the frightful corpse of a man torn to pieces and scattered along the track for a considerable distance.

The first trace of the accident was some blood on the ties about three-fourths of a mile above the bridge, nearly opposite the foot of Six Mile Island. The man had evidently been struck here and was dragged along several feet. A short distance from the first blood the head was found, severed from the body and literally smashed to fragments. Fifteen feet further down the track, the torn and mangled body was found, lying between the rails of the track. The left arm was cut entirely off and was found still further along, and portions of the clothing were scattered almost to the bridge.

The head, as we stated, was literally in fragments. The face had been sliced off as with a knife, and lay separated from the skull and crushed beyond recognition. Blood, brains and fragments of the skull were scattered all about, and a quantity of heavy black hair lay among them. The body was less crushed, but had a large cut across the breast. The left arm was off, and the right arm was broken and twisted out of shape, the bones protruding through the skin. On the body were found the fragments of a brown overcoat, a blue undercoat, dark pants, a course undershirt, and a white muslin shirt. On the face was a black mustache. No trace to the identity of the deceased was obtained. On the locomotive and one of the cars were found blood and brains.

Reuben Church, the Engineer, and Benjamin Connor, the Conductor, felt the train jolt as they passed the scene of the accident, but supposed a lump of coal lay upon the track.

The Coroner empannelled a jury yesterday afternoon and adjourned until to-day at two o'clock. The remains of the unfortunate man are now at W. H. Devore's undertaking establishment on Grant street.

Murder Near Easton.

A most atrocious murder was committed at the Lock at the head of the Six Mile Level, Del. Div. Canal, about twelve miles below Easton, on Sunday morning. The particulars, as we have learned them, are as follows: James Welley, the murdered man, was employed by Frank Donnelly, residing in Williamsport, opposite Easton, to run a boat on the canal. On his return trip from Philadelphia, on Saturday afternoon last, when near Smithtown, about three miles this side of Black's Eddy, a man on the bank of the canal hailed Welley and requested permission to ride. Welley, who was driving at the time, ordered the young man who was steering the boat to let the man on, which he did: The boat then proceeded on its way and arrived at the Lock at Six Mile Level about 1 o'clock Sunday morning, where the boat was tied up, and the young man sent to his home, about six miles distant with the mules, leaving Welley and the stranger on the boat. In the morning the lock-tender, seeing no one stirring, and his suspicion being aroused, went on board the boat, and entering the cabin, found Welley lying on the cabin floor dead. On examining the body it was found that he had been shot in the head and leg, and stabbed in the side, and a piece of his coat stuffed in his mouth. His pockets were rifled of their contents, consisting of money to the amount of $90. The empty pocket-book was found lying on his breast and a wallet near his feet. Mr. Welley and the driver both reside about six miles from the place where the murder was committed, and the lock-tender not knowing that the boy had been sent home, immediately sent out a messenger and found the young man there.

The boy confessed that the murderer was a cousin of his named Deivel. He is a short, stout man, with black whiskers, and had on at the time a high hat. The lock-tender at Smithtown says Deivel got on the boat at that place, and was seen in conversation with the boy. The night of the murder two persons were seen riding the mules towards the house of Welley, and it looks very much as if the boy was at least cognizant of the murder having been committed, even if he was not a principal in the affair. He has been arrested and committed to the Doylestown Jail. Deivel has not been arrested.

Low Priced and Good—The Emerson Piano.

To meet the wants of the great number of persons who desire to possess a piano, but do not feel able to go to the expense of the costliest make, and yet would have only a good, substantial one, we have made a most careful examination of all the lowest priced pianos made in the United States. The result of this examination is that we have found those made by W. P. Emerson, to be the best pianos for the price, and the cheapest good pianos that are made. They are most substantially built, on the soundest acoustic principals; the wood is the best quality properly seasoned; the tone rich and powerful, and the touch easy and elastic; each one is provided with the the full iron frame, and overstrung bass. They stand well in tune and wear well in every particular; this we know from actual experience. The difference in price between the Emerson Piano, and the more costly makes, is caused by the most rigid economy in the manufacture consistent with excellence, and by a saving of labor on those parts, which neither effect the tone or durability. We do not pretend that the "Emerson" is the lowest priced piano made; many can be bought at a less price. Such pianos we do not keep, having found by our own and others experience that being so poorly made they soon give way, lose their tone, become harsh and discordant, and give no satisfaction to the owner, but are a constant source of expense and annoyance. A piano of this kind is a bad investment, and really the dearest piano any one can buy. We do not and will not keep them for sale. Finding the "Emerson" such a desirable piano, we at once secured the exclusive agency for them for Pittsburgh and surrounding country, and having made special contracts for a regular weekly supply for a long time to come, we can offer them at unusually advantageous rates. All persons desiring the best cheap piano in the market, should not fail to examine the "Emerson" before purchasing any other kind. Liberal discount to clergymen, teachers and cash customers. Injured on the Train

Miss Mary Morris was seriously injured at Leavittsburg yesterday morning by being run over by the mail train on the A. & G. W. Road bound east. She endeavored to jump upon the platform of a car while it was in motion, but a carpet-bag, which she carried in her hand, caught against the railing and swung her backward so she fell upon the track. The cars passed over her, cutting off one leg and crushing the other foot. She was taken aboard the train, and carried to Warren, where her injuries received attention. Her recovery is possible but hardly probable.

The brother of the injured lady, Henry Morris, of this city, was at the depot to meet her upon her arrival, but instead of seeing her, received the news of the serious accident which had befallen her.—*Meadville Republican of Tuesday.*

Death of an Esteemed Citizen.

We are pained to announce this morning the death of one of our most esteemed and respected citizens, Ira B. McVay, Esq., Banker, who died at his residence in South Pittsburgh, yesterday afternoon. Mr. McVay had long been identified with the banking interests of Pittsburgh, and was at one time connected with the firm of W. H. Williams and Co., but several years ago established the present firm of Ira B. McVay & Co. He had been suffering for years past from a cancer which started on the forehead immediately above the nose, and finally succeeded in penetrating the brain and causing death. As a christian and estimable gentleman, Mr. McVay held a high place in the respect and affection of a large circle of friends, who will be deeply pained to hear of his death. His funeral takes place to-morrow morning at ten o'clock.

A Curious Runaway Accident.—About noon on Thanksgiving Day, Mr. Sheppard Ellis was driving down North Main street, Meadville, in his buggy. As he turned the North street corner, a pair of runaway horses, which were galloping down North street, came into collision with his buggy, actually jumping into it, whereby the whole concern was sent sprawling into the mud. No one was hurt, but a suit of new clothes were scandulously muddied. The runaway horses was caught, the capsized buggy righted and all things moved on as before.

Fiendish Attempt.—On Friday night an attempt was made to throw the extra train on the Cumberland Valley railroad from the track, a short distance above Shippensburg. Iron bars had been placed across the track, but fortunately, the train was moving slowly and the cow-catcher of the engine shoved the obstructions aside. Had the cars been running at the usual railroad speed, a terribly fatal accident must have resulted.

An Oil Smeller in Luck.—A spiritual medium named Fox has established his reputation by locating a well on the E-py Farm at the head of E-py Run. As the territory about there is good, a well was sunk and on Wednesday oil was struck. That lucky guess will be sufficient proof of his powers to give him unlimited license for gulling the public as an "oil smeller."

Heavy Larceny.

On Saturday morning officer Scott, of the Mayor's police, arrested a man named J. M. Kretz on a charge of larceny preferred by T. W. Davis, Esq., of the firm of Wormser, Myers & Co. The information represents that the accused, some time during the past month, stole and carried away from the premises of the firm mentioned one hundred and seventy-six pounds of pig lead, worth about $18.50. It appears that the fire which destroyed the oil refinery of Messrs. Wormsey, Myers & Co., of the 6th of August last, melted the sheet lead with which the tanks were lined. This melted lead was subsequently gathered up and remelted, being run into pigs, or rather thick square plates, which were piled under one of the sheds on the premises. During the last month these masses of lead were missed, and no trace of them was discovered. A few days since a teamster, who was doing some hauling for the company, heard the larceny of the lead mentioned and stated that he had recently hauled some lead of that description to the premises of Messrs. Cooper, Kaye & Co. Mr. Davis visited these gentlemen and obtained a view of the lead they had purchased, which he fully identified as that stolen. He ascertained that they had purchased the lead from Mr. Samuel Lowenthal in the Ninth ward. Waiting on Mr. Lowenthal, Mr. Davis ascertained that that gentleman had purchased the lead from the accused, an employee of Messrs. Wormser, Myers & Co. Information was made, a warrant issued, and the accused arrested as stated. A hearing was had, at which the prisoner fully confessed his guilt and, in default of $300 was committed for trial. A quantity of scrap brass was also stolen from the premises of the prosecutors previously to the theft of the lead, and has not yet been recovered.

Captured Again.

Wm. Arnold, alias "Snibs" Arnold, was arrested at the Irwin House some time since, as our readers will recollect, on a charge of being a professional thief. He was one of a gang, and was released on condition that he would leave the city immediately. He promised, but failed to fulfill his promise, and on Friday was discovered by a couple of officers at the Irwin House. It had previously become known that he was still in the city, and the officers had received orders to arrest him when found. They accordingly directed him to accompany them. He refused. They insisted and took him into custody. He fought valorously and long, but was finally captured and taken to the Mayor's office. There information was made against him for resisting officers, and the hearing resulted in his being committed to jail for thirty days on the charge. A second commitment was lodged against him on a charge of being a professional thief, and he will have a hearing on the charge on the 8th inst. Mrs. Annie McKelvie, residing in the Seventh ward, hearing of "Snibs" being in limbo, proceeded on Saturday to make information before Alderman Butler, charging the prisoner with malicious mischief. She alleges that a few nights ago he came to her house and acted in a very disorderly manner, breaking her furniture, smashing the windows, &c. A commitment was lodged against the accused for a hearing to-day.

A Needed Correction.

A most awkward and mortifying mistake occurred in our issue of Saturday morning respecting the testimonial presented to Abdiel M'Clure., Esq., the retiring Recorder. At a late hour at night we prepared a correct report of the proceedings on the occasion, and sent it to the composing room, and were informed that a full report of the meeting had already been sent in, and was in type. Supposing that the report had been prepared by one of the officers of the meeting, we paid no further attention to the matter, and it was not until next morning that we discovered, to our chagrin, the joke that had been perpetrated. In justice to the gentlemen concerned, we will now state that the presentation was made at the office of Messrs. Moffat & Cochran. The meeting was organized by calling Major A. M. Brown to the chair, and appointing Scott Ferguson, Esq., Secretary. George R. Cochran, Esq., made the presentation, accompanying it by one of his usually happy speeches, and John F. Edmundson, Esq., responded appropriately on behalf of Mr. McClure, who averred that he was a man of "deeds" and not of words. The cane was gotten up in admirable style by William Wilson, No. 51 Fourth street, and has the following inscription: "Presented to Abdiel M'Clure, Recorder, by the Pittsburgh Bar, as a mark of their esteem, November 30th, 1866."

Gymnastic Anatomy.

We announced, some time since, that the Gymnastic Association of this city had opened correspondence with Prof. G. B. Windship, of Boston, tendering him an invitation to deliver a course of lectures before the Association during the winter. The following letter from the "strong man" set that at rest:

"BOSTON, November 29, 1866.

"DEAR SIR:—I discontinued lecturing more than four years ago, and could not conveniently resume it, at least to go so far from home as your city. You will see by my card that I am pretty well tied to the "hub.

"Truly yours, G. B. WINDSHIP."

The Gymnasts, however, were fully determined to have their lectures, so they have secured the services of Dr. J. H. Sutton to deliver a course during the winter, on Anatomy, with especial reference to gymnastic training. The first lecture was delivered on Friday evening, at the Gymnasium, on Fourth street, and was well attended. The next is to be delivered to-morrow evening at the same place. The lectures are free, and should command a large attendance. After a short time a corps of teachers will be in regular attendance at the Gymnasium to instruct and direct members in their exercises.

Accident.—Mr. James Burke, a former resident of Stroudsburg, and an employee of the Delaware, Lackawanna and Western Railroad Company, was seriously injured at Del. Station, N. J., on Wednesday evening of last week. He was engaged in fixing something about the caboose of the train, of which he was brakesman, and while under the car, the engineer, without previous notice it is said, commenced backing the train. Burk was so badly jammed as to break his left thigh bone, and his right leg, below the knee in two places. He was otherwise badly bruised, but the prospects of his recovery are good.

Acknowledgment.—We take off our hat in acknowledgment of the handsome things said of us by our Sunday neighbor yesterday. We hope the time may come when facts will warrant the "end men" in saying something good of the accomplished gentleman who acts as "Leader." We assure our readers that if *Mac Iver* becomes "funny" or "able," or has anything at all to do with the "first families," we will hasten to announce the fact.

DIED.

TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

THE RIGHT OF SUFFRAGE.

The right of suffrage is, just now, receiving a great deal of attention. At no previous time has it been examined so intently and scrutinized so closely.

Heretofore it has been claimed, and to a considerable extent conceded, that the entire control over the right of suffrage belonged to the several States, and that the United States could not interfere with it at all. We think the claim is not a good one, and cannot be maintained.

The Constitution of the United States declares that "the members of the House of Representatives shall be chosen by the *people* of the several States;" but it adds this explanation: "and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature."

It will be observed that this provision is not a grant of the right of suffrage to anybody, or an admission that any State has the power to grant it to anybody. It is an acknowledgment that the right is in the people of the several States—the whole people——without, and independent of any grant either from the United States or any of the several States.

By "*people*" the Constitution must mean citizens; because persons residing within a State, who are not citizens of it,—aliens, for instance—are in no proper sense its people—though they are within its boundaries, they are people of some other State.

The right of suffrage then being in the *people* of the several States, how can this explanatory clause be construed to authorize the several States to deprive them or any class or classes of them of it? If it can, how far does the power extend? From what class or classes may the States withhold the franchise? How is that class or those classes to be distinguished? By what marks are they to be known? What is the highest limit of the proportion which they may rightfully bear to the whole body of the citizens?

In answering those questions, we may find assistance in that clause of the Constitution which requires the United States to guarantee a republican form of government to the several States. If any State should put into its constitution or laws, any provisions that would make its form of government *un*-republican, the United States is compelled by this clause of the Constitution, to step in, and, by its own enactments, abrogate those provisions.

WEBSTER defines a republic to be "a State in which the exercise of the sovereign power is lodged in representatives elected by the *people*;" and, he defines an oligarchy to be "A form of government in which the supreme power is placed in a few hands; a species of aristocracy." This is the difference between these two forms of government. In a republic the supreme power is in the hands, not of a class or classes, but of the people, without regard to class distinctions; in an oligarchy, the supreme power is in the hands of an aristocracy, a class or classes, to the exclusion of the *people*. In the one the sovereign power is in the hands of the whole; in the other it is in the hands of less than the whole.

If one of the States should, by its constitution or laws, disfranchise any class or classes of its people, then its supreme power would not be lodged in representatives elected by the people, but in representatives elected by the class or classes to which the franchise was limited, and it would therefore be, not a republic, but an oligarchy. In such case the government of the United States would be obliged by the constitution to step in and by its own enactments annul those provisions of the State constitution and laws that prevented it from being a republic, and made it an oligarchy; that is, the United States government would be obliged to step in, and by its own enactments annul those provisions of the State constitution and laws that limited the franchise to less than the *people*—to less than the whole body of citizens.

Should any one say, that though the classes that are disfranchised may not choose their own representatives, still they are virtually represented by those chosen by the enfranchised classes, we would answer in the words of Mr. PITT, in a speech made by him in 1766, in regard to the complaints of the Americans that they were not represented in Parliament, and in answer to those English statesmen who argued that the Americans were *virtually represented*. "The idea," said he, "of *virtual representation* is the most contemptible that ever entered into the head of man;"—or in the language of a distinguished English writer, that "it is the nightmare of fools."

If a State, under the explanatory clause before cited, has the power to disfranchize permanently a part of its citizens, how far does the power extend? What proportion of its citizens may it disfranchise? If a tenth, why not five-tenths, or nine-tenths, or ninety-nine-hundredths? If it may disfranchize all who do not own $250 worth of property, why may it not disfranchise all who do not own $2,500 worth, or $25,000 worth, or half a million dollars' worth? If a State were to disfranchize ninety-nine-hundredths of its citizens, or nine-tenths, or one-half, or all those who did not own half a million dollars' worth of property, or twenty-five thousand dollars' worth, would it not be an oligarchy and not a republic? and would not the United States be bound to strike out those disfranchizing oligarchic provisions, and replace them by republican provisions? If a State has the power to disfranchise any of its citizens, what is the limit of the power? By what process is the proper place of the limit to be ascertained? By what rule is the power to be measured? On what principles may it be required to stop at any one point rather than another? Is it not manifest that, if the power exists at all in the States, there is no rule or principle by which its limits can be fixed? And is it not, for this reason, equally manifest that the power does not exist?

It will be asked what this explanatory clause means, if it does not leave the whole power over the elective franchise in the several states? It means that each of the states shall have the power to declare, first, how long a person moving from another state into it, shall be required to reside in it before he shall become one of its citizens, and as such be entitled to the elective franchise; second, how long a citizen of the state shall be required to reside in any of its election districts, before he shall be entitled to vote in such district; and third, what taxes a citizen shall be required to pay to entitle him to vote. The first two of these are necessary to preserve the purity of elections by preventing the "colonization" of voters, as was done in Kansas, and is not unfrequently done between the several districts of the same state; and the third is necessary to secure the means for defraying the expenses of the state governments. These things apply to all persons alike without regard to class distinctions, and, except under extraordinary circumstances, they exhaust the whole power of the several states over the elective franchise. Every person who brings himself within these provisions, is in the contemplation of the Constitution of the United States, one of the *people* of the state in which he resides, and is invested by the very fact of his citizenship with the elective franchise.

In a Republic citizenship and the elective franchise are necessarily inseparable. Their inseparability is the very foundation stone of a Republic. It is the central idea of a Republic—its very soul. Without it a State cannot be a Republic any more than a body without a soul, can be a man. In conformity with this, the Constitution of the United States does not undertake to *grant* the elective franchise to the people of the several States. It merely acknowledges it to be in them, and to be in them by virtue of their citizenship. It does not claim the power either to give it or to take it away, and it does not attempt to do either. Neither does it recognize in the States any power to give it or to take it away. The most it does is to recognize in them a power to regulate its exercise—a power over what may be called the *police* of elections. We have already pointed out the things that come within the scope of this power; and, which, except under extraordinary circumstances, exhaust it. These extraordinary circumstances are such as treason or felony, by which the traitor or the felon forfeits, along with his life or liberty, his citizenship and all the rights that flow from it. When the several States have exercised this police power over elections, they have done all that they have any right to do in the premises, and when they attempt to do more, they are guilty of usurpation; and when they attempt to disfranchise any of the citizens, they are guilty of a violation of the Constitution of the United States which guarantees to each State a republican form of government, and makes it imperative on the United States government to nullify their action therein by its own enactments.

The wisdom of the provision in the constitution of the United States guaranteeing a republican form of government to the several States, and thereby guaranteeing the inviolability of the elective franchise to the citizens, is strongly exemplified by the action of ANDREW JOHNSON in framing constitutions for the rebel States after the suppression of the rebellion. It is a mistake to say that the constitutions of those States were formed by those States themselves. They were dictated by Mr. JOHNSON; they were accepted by his conventions in those States under the crack of his whip, and they never were submitted to the people. Those constitutions are the work of ANDREW JOHNSON and of nobody else, and they disfranchise from a third to three-fifths of the citizens of those States. The class that they enfranchise are the rebels, who, by their treason, had forfeited their liberty, their lives, their property, their citizenship and all the privileges and benefits that flow from citizenship, and who, not only were rebels, but are still as disloyal, as hostile to the government, and as rebellious in spirit as ever they were, while the class that they disfranchise are the loyalists, who, all through the rebellion, were faithful among the faithless, who were ever ready to act as guides to our troops, to succor them when prisoners, to feed them when they were hungry, to clothe them when they were naked, to nurse them when they were sick, to help them to escape and hide them from their pursuers, and who fought side by side with us to put down the rebellion, and did it all at the risk, if they were captured, of being torn to pieces by the lash or the bloodhounds of the slave drivers. It was not enough for ANDREW JOHNSON to violate the Constitution, in his course concerning reconstruction, by usurping the powers of Congress, but, to show his disregard of every consideration of propriety and decency, he put the governments of the Southern States entirely into the hands of the rebels who gloried in being rebels, by enfranchising them and disfranchising the loyal people. His conduct in this regard was not only lawless and wicked, but it was the devil's-dance of a madman.

In this state of affairs there is nothing left for the United States government to do but to abrogate all disfranchising enactments of the several States, whether they be found in their constitutions or statutes, and to restore the franchise to its proper position, the position in which the constitutions of the several States and of the United States found it, and in which the last named constitution left it, to wit: the position of inseparability from citizenship. It must do this or fail in its duty to guarantee to the several States a republican form of government.

The question then arises, By what process shall these disfranchizing enactments of the several States be abrogated? Shall it be done by a decision of the Supreme Court of the United States, by an act of Congress, or by an amendment of the Constitution? It may be done in either of these ways; but the last is much the best. A decision of the Supreme Court is subject to be overruled at any time by a new set of Judges, and an act of Congress to be repealed by a new Congress. Either of these modes, therefore, is uncertain and temporary, whilst that by a change of the Constitution is certain and permanent. By a change in the Constitution alone can all pretence on the part of the States to control the franchise be taken away. In that way, therefore, every consideration of prudence requires it to be done.

It will be remembered that one great objection on the part of the Radicals to the pending amendment of the Constitution, was that it admitted a power in the State governments to disfranchise any class or classes of their citizens, and by doing so introduced a new and most pernicious principle into our system of government. The objection is, doubtless, a good one, and one that ought to have prevailed. It will be a great misfortune if such a principle should gain a footing in the government. If it should, the government will be no longer a pure republic, but a cross between a republic and an oligarchy; and as power is always prone to slip away from the many to the few, the oligarchic will be sure to wear out the Republican principle by little and little until it will be all gone and the government transformed into a pure oligarchy.

Two Government detectives of Philadelphia have been arrested for levying black mail from a well known distiller. As a general rule Government Detectives should be treated as rogues, at least so long as their character for honesty is not known.

LETTER FROM WASHINGTON.

Special Correspondence Pittsburgh Gazette.

WASHINGTON, Dec. 2, 1866.

The members of Congress are rapidly arriving. It is quite evident the republicans have been stiffened by the result of the elections and by the progress of public opinion since, which has been more rapid and decisive than during the canvass. Unless the President shall be guilty of new and flagrant invasions either of the preogatives of Congress or of the rights of the people, it does not seem probable an impeachment of him will be broached; but there is a fixed determination to so hedge about the President by the statutory provisions as to keep him strictly to his proper functions and deprive him of power for serious mischief.

It is not only on the subject of reconstruction that the indignation of the members is aroused. The Mexican imbroglio is eliciting severe comment. The scheme is denounced as mainly one of financial speculation on the part of Mr. Seward and other supporters of the President's Policy. It is plain enough they have several "big things" in the way of money making, in this project, and that they are prepared to run great risks of collision with foreign powers by employing the army and navy to farther their pirate ends.

The grand parade in welcome of the members of Congress, which was to have been made yesterday, stands adjourned till to-morrow. The necessity for adjournment was found in the fact that the members did not appreciate the intended honor so highly as to be on hand to share in it.

Most, if not all the members who have arrived so far, received at their respective houses, circulars solemnly notifying them that a plot for their assassination had been concocted. This revelation does not appear to have given their nervous systems a shock; for whatever they may think of the temper of the conservatives and rebels, they fail to discover, as matters stand, an adequate motive to so sanguinary a proceeding. The new Congress is already elected, and a stupendous brutality, such as is hinted at, would raise the wrath of the loyal masses to white heat.

A strong inclination is apparent to reduce the ten seceding States to the territorial condition in case they continue to reject the measures of reconstruction which Congress deems essential to the repose of the country.

Important financial measures will certainly come before Congress, including an adjustment of the impost and excise duties; an increase of banking capital, ostensibly to meet demands from the Southern States; the consolidation of the national debt into bonds of long term and bearing a lessened rate of interest; the redemption of national bank issues at New York, or a few commercial centers; and the retiring of compound interest and legal tender notes, with a view to specie payment. It is possible that an effort may be made to abolish altogether the system of internal revenue. The pretext for this will be found in the alleged payment of two hundred millions of dollars of the public debt during the past year. The real motive will be found in that sort of encouragement to commerce which consists in giving foreign manufacturers an almost exclusive command of the markets of this country, to the comparative annihilation of our own manufactures. E.

GOVERNOR CURTIN has the prestige of a popular administration of the State for a period of six years, and at a time when consummate executive abilities were imperatively demanded, and in this instance fortunately supplied. It has been many years since any Governor of that State has retired from office bearing with him so many evidences of the affection of his political friends and the honest admiration of his political enemies. Gov. Curtin has also the advantage of great personal popularity. Outside of politics no good man in that great commonwealth speaks ill of him. Courteous in manners, affable in address, and uniting to a frank and generous nature the refinement of the gentleman and the simplicity of the republican, he could not fail to favorably impress his fellow citizens of all parties, and command their respect if he could not win their affections. To his ability as an executive and his popularity as a man the Republican party is largely indebted for the overwhelming strength it wields in the Keystone State.—*Cincinnati Commercial.*

THE SEASON OF STORMS.—The blasts of autumn and the chill storms of early winter are apt to make sad inroads upon the constitutions of the feeble. In old times at the commencement of every season it was the fashion to take a strong cathartic as a safeguard against a change of temperature. It was a worse than senseless practice. The people of our day understand the matter better. Instead of depleting the system they reinforce it. In the method they adopt they exhibit a wise discrimination. Instead of resorting to the vitiated stimulants of commerce, or any of the compounds derived from them, they put their faith in the only absolutely pure invigorant procurable in the market—HOSTETTER'S STOMACH BITTERS. Their faith is well founded. Never has any tonic medicine been prepared with such scrupulous precision and conscientious care. It is a vegetable compound of which every ingredient is sound, wholesome and MEDICINAL in the true sense of the word. Now we have three prominent national complaints. One-half of the adult population of the United States suffer more or less, either from diseases of the stomach, derangements of the liver, or affections of the kidneys. In no other land under Heaven are these maladies so general as in this country, and HOSTETTER'S BITTERS is a specific for them all unless organic in their origin, and, therefore, beyond cure. And let those who are fortunate enough to be exempt from them at present understand one great fact, viz: That an occasional use of this vitalizing tonic will as certainly prevent them as the sun will prevent the earth from freezing where its genial beams descend. —*Communicated.*

GREAT REVOLUTION IN THE WINE TRADE OF THE UNITED STATES. —PURE CALIFORNIA CHAMPAGNE, made and prepared as if done in France, from pure California Wine, and taking the place of Imported Champagne.

The undersigned would call the attention of Wine Dealers and Hotel Keepers to the following letter, which may give a correct idea of the quality of their Wine:

"CONTINENTAL HOTEL,
PHILADELPHIA, Oct. 25th, 1866.

"MESSRS. BOUCHER & CO.—*Gentlemen*: Having given your California Champagne a thorough test, we take pleasure in saying that we think it the best American Wine we have ever used. We shall at once place it on our bill of fare. Yours truly
J. E. KINGSLEY & CO."

Call and try our California Champagne.

C. C. SEELY'S

CHOLERA PREVENTIVE.

FOR REGULATING THE BOWELS, destroying Acidity in the Stomach, creating a healthy action of the Liver, assisting in the Secretion of Healthy Bile, giving Regularity to the Bowels, and assisting the System to a Healthy state, the PREVENTIVE is unsurpassed. It has been tried in thousands of instances, and has never been known to fail where the directions were strictly followed.

At this time, when we know not at what moment the fell destroyer may be upon us, nothing should be left undone that can be done to give the system a healthy action, and it is with a view to bring about this great desideratum, while of itself is the strongest bulwark against the attacks of cholera, that this medicine is offered to an intelligent public. Its action in cases of Diarrhea is magical. One bottle of the Preventive serves to check the complaint—two seldom required.

Seely's Cholera Preventive

Is the result of many years study and labor. The object of the proprietor in the first place was to produce a medicine that would assist digestion and relieve him from the terrible sufferings of Dyspepsia. Having attained this great end, he found that the mixture was an admirable regulator, and that in cases of diarrhea its action was wonderful. Incipient Diarrhea was cured by a single bottle, and even chronic cases were compelled to succumb to the powerful efficacy of this medicine.

Having by actual experiment in his own case, and that of his family, satisfied himself of its curative powers, he offers it to the public in full confidence that it will effect all that he claims for it.

Unlike the numberless quack nostrums that are foisted upon a too credulous public, it is not a universal cure-all, but is intended for a remedy, and is only efficacious in cases of Incipient Cholera, Diarrhea, Dyspepsia, or kindred ills, arising for the most part from imperfect digestion.

In full confidence of its restorative powers, it is now offered to the public.

No household should be without a supply of it. Steamboats, Hotels and Travellers should always have it on hand.

It is easy to take, simple in its nature, and instantaneous in its effects.

Sold by all respectable druggists and country storekeepers. au27:28M

AGENTS WANTED

FOR THE MOST POPULAR

AND BEST SELLING SUBSCRIPTION BOOKS PUBLISHED.

We are the most extensive publishers in the United States, (having six houses,) and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our books do not pass through the hands of General Agents, (as nearly all other subscription works do,) therefore we are enabled to give our canvassers the extra per cent. which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address

Meeting of the Bar—Testimony of Respect to Hon. E. H. Irish.

The death of Hon. E. H. Irish, of the Pittsburgh bar, which occurred at New Castle, on the 24th ult., has already been noticed in our columns.

A meeting of the members of the Bar was convened in the District Court room Saturday morning, to take suitable action in reference to the death of their esteemed fellow-member. The meeting was organized by calling Hon. Thomas M. Marshall, Esq., to the chair, and appointing Gens. F. Collier and A. L. Pearson Secretaries.

On motion, Messrs. A. M. Brown, S. Schoyer, Jr., and J. C. McCarthy, were appointed a committee to prepare a series of resolutions, and after a short absence submitted the following:

Resolved, That we have heard with sincere and deep regret of the death of our brother, Hon. Elias H Irish.

Resolved, That we recognized in him the warm hearted and trusty friend, the genial companion, the courteous and honorable lawyer, liberal minded citizen and the faithful and incorruptible legislator.

Resolved, That the setting of the sun of his life, ere it had reached its meridian, has cast a gloom over our hearts which may measurably be dispelled by emulating his virtues.

Resolved, That we tender to the family of our departed friend the expression of our condolence, and the assurance that the kindness of his nature and the considerateness of his conduct, which make his loss to seem irreparable, cause us to feel an earnest sympathy in their sorrow.

Resolved, That these resolutions be spread upon the minutes of our courts, and an engrossed copy be transmitted to the mother of the deceased.

Pending the adoption of the resolutions, eloquent tributes to the memory of the deceased were paid by Thomas M. Marshall, Esq., Major A. M. Brown, S. Schoyer, Jr., Esq., General F. H. Collier, and others.

The resolutions were then unanimously adopted and the meeting adjourned.

The Supply and Price of Coal.

A correspondent of the Pottsville *Miners' Journal*, discussing the coal question, says: The Schuylkill region is only furnishing the coal which the other regions cannot. Producers in Lehigh and Luzerne are able to work to their full capacity, but the Schuylkill county operator is only able to send to market three-fourths of the coal he could take out, thus increasing the cost of what he does send. The production this year has been 3,455,095 tons up to November 7th. To-night it will have reached more than 3,500,000 tons. This has averaged $5 per ton at Philadelphia; for while some of the large sizes, during the year, have been sold for a higher price, chestnut coal has been a drug the greater part of the time, and has sold for as low as $1 a ton at Schuylkill Haven. Tolls have been $2 until August 1st, and since then $2,25 per ton. Now, at $5 a ton, 3,500,000 tons has produced $17,500,000, of which about $2,87¼ a ton, equal to $10,062,000, went to the operators, the dealers, and the commission houses, while the carrying companies received $2,12½ a ton, equal to $7,437,500. Now, is there any money made at these prices? If coal has produced $2,87¼ a ton at Schuylkill Haven, there must be an allowance of at least 25 cents a ton for commissions and necessary expenses, so that the operator has only received $2,62½ a ton, with which to pay expenses of mining, rent, and tolls to Schuylkill Haven. If I am correctly informed, the cost of every ton sent to market this year will be $3,25 at Schuylkill Haven, so that the operators have lost an average of 62½ cents a ton on 3,500,000 tons, making a total loss of $2,187,500.

Stealing from a Jail Prisoner.

We reported, some time ago, the arrest of a young man named R. C. Gamble at New Castle, by officer James Bell, of Alderman Taylor's police, for horse stealing, James Dain, the proprietor of the Excelsior Livery Stables, in the Fifth ward, being the prosecutor, and his committal to jail by the magistrate in default of bail for trial. Gamble, a day or two since, made an effort to secure counsel, as his case would probably come up at the coming term of the Criminal Court. His funds were at the lowest, and he resolved to dispose of a fine overcoat, valued at seventy-five dollars, which he had in his possession, and which he claimed belonged to him. Accordingly he applied to a friend named George Newlett, in whom he reposed great confidence, and desired him to sell the coat. Newlett took the coat and started off, since which time neither Newlett or coat has been heard from.

Gamble, on Friday, sent for Alderman Lynch, of the Third ward, and made an information against Newlett for larceny as bailee. A warrant was issued for the arrest of the accused, who resides in Stewartstown, near Sharpsburg.

A Queer Dramatic Trial.

Allegheny City boasts of two literary associations—the "Edwin Adams Dramatic" and the "Burnett Literary," each of which is about one year of age. For some time past considerable controversy has existed between the members of both associations regarding the acting powers of the ladies and gentlemen constituting each association. It has ended by a challenge from the former named to the latter association to give a public performance, which has been accepted by the "Burnett," and the 27th of the present month has been set apart for the performance, and Masonic Hall secured for the purpose. Excellent pieces are in rehearsal, and a committee will be selected from the audience, on the night of the exhibition, previous to the commencement of the performance, whose decision will settle the question at issue. The "Burnett" will play the opening piece, and the performance of the Adams will conclude the evening's entertainment, at the end of which the decision will be rendered.

Nasby's Letters.

The famous letters of Petroleum V. Nasby, written by Mr. D. R. Locke, were first suggested during the early part of the war on the occasion of the funeral sermon, at Wingert's Corners, in Crawford county, Ohio, of a soldier who had given his life to his country. It will be remembered that until the last Presidential election all of Nasby's letters were dated at Wingert's Corners. The preacher, on that occasion, commenced his sermon with the remark: "Here lies another victim to this G—d d—d Abolition war," and in all his education, habits, political belief, &c., is nearly allied to the character which Mr. Locke assumes. Mr. L. having a keen sense of the ludicrous, and knowing well the preacher and his foibles, was struck with the humor presented in the antagonism of his calling and practices, and at once assumed to represent the one and the other. Hence the Nasby letters.

Stealing a Dead Dog.

A great watch dog belonging to a dry goods house, in a Pennsylvania city, died recently and the clerks could not readily get rid of the body. They finally put it in a packing case, and nailed on the lid, and marked it A. T. Stewart & Co., New York, leaving it over night on the sidewalk, first giving a hint to the watchman on that beat. The same night a furniture wagon, with the horse's feet muffled in pieces of carpet, drove up, two men jumped out, quickly and quietly put in the box, jumped in again and drove away. That was the last seen of that faithful animal.

Our New Officers.

Saturday morning, in the Orphans' Court Geo. R. Cochran, Esq., of the firm of Moffat & Cochran, presented the commissions of Jos. H. Gray, Esq., Register for the Probate of Wills elect, for Allegheny county, and also the commission of Henry Snively, Esq., Recorder of Deeds elect. The commissions were read in open Court, and after having been duly sworn in by his Honor, Judge Hampton, they assumed the duties of their respective offices. The commission of Colonel Alexander Hiland, Clerk of the Orphan's Court elect, was presented by the Hon. J. P. Penny, and also read, when the Colonel assumed his official duties. John S. Brown, Esq., Clerk of Oyer and Terminer, &c., will assume the duties of his office this morning.

Our readers should not neglect the opportunity offered by John D. Bailey, Auctioneer, to secure one of those desirable building lots, advertised at public sale to-morrow (Tuesday) morning, at ten o'clock. Taking into consideration the convenience of the property to Allegheny City, and the liberal terms of payment offered, such an opportunity may not again present itself.

Serious Accident.—On Friday a carpenter, at work on a new building, near Soho run, fell from a scaffolding, and dislocated both wrists. He resides at Rochester, Beaver Co., to which place he was conveyed after his injuries had been attended to by Dr. McCook.

EARLY TELEGRAMS.

FROM SOUTH AMERICA.

New Commander for the Allied Fleet—Losses in the Attack on Curapaity.

NEW YORK, Dec. 1.—Advices from Rio de Janeiro, Oct. 29th, state that Baron Amasonas has been appointed to command the allied fleet in Paraguayan waters in place of Viscount Tamangare.

Marshal Caxess has been appointed to the command of the Brazillian army, and probably will receive command of the whole of the allied forces. Lopez is still strengthening his forces at Curipaity.

The allies lost seven hundred men in the assault on Curaipaity. The Paraguayan loss is unknown. Three of the allied iron-clads were seriously disabled. They are said to have done more harm than good to the assaulting columns, killing many of their own men. The allied forces would fall back to Corrient. Large quantities of ammunition are being sent from Rio to Montevedo, but few troops are going.

United States Minister Washburne will attempt to reach Paraguay in the gunboat General Flores. The end of November is fixed as the time for the election of a Constitutional Governor in Paraguay. A revolt by his enemies was fixed.

The stock of coffee at Rio is one hundred thousand bags.

Advices from Jamaica state that further heavy duties on the distillation of rum are imposed by the Legislature. For the future there will be no communication between Jamaica and the United States, except sailing vessels.

The screw steamer Bolivar, for the Venezuelian navy, reached Laguayra in October from England. The English crew insisted on being retained, and the government refusing, they run away with the vessel.

Report of the Postmaster General—Inspection of the Squadron in Southern Waters.

NEW YORK, Dec. 1.—A Washington special dispatch says: The annual report of the Postmaster General is printed. It shows there have been less change in discharges and appointments during the fiscal year ending June 30th than the previous year. Among the recommendations it is urged that additional compensation should be paid to clerks in the department.

A Washington special says: The United States gunboat Rhode Island, with Rear Admiral Palmer, has sailed from Norfolk on a cruise to inspect the vessels of his squadron stationed in Southern waters. The Gulf Squadron will shortly be consolidated with the North Atlantic Squadron, making it one of the largest in the service.

Eugene Murphy has been appointed United States Marshal for the Department of Louisiana, vice McKee, removed.

Mr. Seward's Alleged Cable Dispatch.

NEW YORK, Dec. 1.—An alleged cable special published in the Associated Press news from Paris, states that Seward's cable dispatch related mainly to the march of the French from Mexico, &c. The dispatch was probably spurious, as it could easily have been manufactured here, and the land lines to Heart's Content were down all day yesterday.

Convention of French-Canadians.

NEW YORK, Dec. 1.—A large convention of French Canadians was held at Cohoes, this State, and elected delegates to the United States Convention of French-Canadians, to be held here to-day. The Cohoes Convention was strongly in favor of Canada endeavoring to gain admission to the United States.

Visit to Jeff. Davis.

NEW YORK, December 1.—The Mississippi Commissioners had an interview with Jeff. Davis, at Fortress Monroe, yesterday, but could give him very little encouragement as to the success of their mission to Washington. Clement C. Clay has gone to Alabama.

Oil Merchants Arrested.

NEW YORK, December 1.—Two merchants at Titusville, Pa., who have charge of the Parker Oil Refinery, have been arrested on suspicion of having committed heavy frauds on the Government by evading the Internal Revenue Laws.

FOR SALE.

FOR SALE.—A Farm of about 58 acres in Union Township, Allegheny county, Pa., situate about four miles from the city on the Washington Pike. The improvements are a large two story Brick Dwelling House with 12 rooms, a two story Spring House, a Carriage-House, a large Lumber Room, a No. 1 Frame Bank Barn, with stabling sufficient for 50 head of cattle. There is a fine Young Orchard, comprising about 12 acres, stocked with the best varieties of fruit trees. It is all underlaid with coal. The land is in a high state of cultivation, well watered, fences good, and would suit admirably for dairy or gardening purposes.

Also, 17½ acres adjoining the above, with a good Frame House, Carriage House, good Spring House and other out-buildings; with a good Orchard in fine bearing condition. This piece is also all underlaid with coal.

Also, 12 acres adjoining the above, unimproved, for sale low. This piece is also all underlaid with coal.

The above three pieces of property lie between the Little Saw Mill Run and Steubenville Railroads, and the coal can be reached easily from either road. The coal alone is worth all that is asked for the entire property.

Also, Farm of 173 acres, situate in St. Clair township, Westmoreland county, Pa., immediately on the line of the Penna. Railroad. The improvements are a two-story Frame House with five rooms and good cellar, a Frame Bank Barn, 40x60 feet, and other out-buildings. There is on the place a good Young Apple Orchard: 120 acres cleared, balance in good timber, fencing generally good, well watered: underlaid with coal and limestone; convenient to churches, mills, schools and blacksmith shops, together with the personal property such as stock, implements grain in the ground, &c. Possession given immediately.

Also, Farm of 83 acres, situated in Chartiers township, Allegheny county, Pa., about 3½ miles from the city, near the line of the Steubenville R. R., and within one-half mile of a station; 30 acres of the best of creek bottom land, and in a high state of cultivation; 23 acres of wood and pasture. The fencing is generally good. The soil is No. 1, and well adapted for gardening. The attention of those wishing to embark in the business will call at once and secure a good bargain, as this is a rare chance.

Also, Farm of 84 acres, situate in Elizabeth township, Allegheny county, Pa., on the Monongahela river, about one mile from the Borough of Elizabeth. The soil is of the best quality. The improvements are a farm house with six rooms, a good barn and other out buildings; fencing good; about 50 acres of coal. Churches, schools and mills very convenient. Possession immediately.

Also, the best Farm in Elizabeth township, containing about 90 acres, lying on the Monongahela river immediately below Lock No. 3, on which is erected a large two-story brick dwelling, one log and one frame bank barn, corn crib, wagon shed, brick spring house, granary, work shop, &c.; about 30 acres of the above is first quality river bottom; the balance being limestone land, and underlaid with coal, and about 20 acres of limestone. There are two orchards of apple trees, in good bearing condition; peach pear, plum trees and grape vines, &c. The land is well adapted for gardening purposes, being a short distance from the thriving borough of Elizabeth, creating a market at home for all the products. The property will be sold cheap and on reasonable terms.

Also, A Farm of 96 acres, situated in Elizabeth township, Allegheny county, Pa., about one mile from Lock No. 3, on Monongahela river. Improvements are one frame house, with five rooms, barn, spring house and other outbuildings. The land is of the best quality. The above will be sold at very low figures.

For further particulars, enquire of

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ⅝ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York.

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well

[F]ROM WASHINGTON.

The Cotton and Sugar Frauds.

REPORT OF THE COMMITTEE OF INVESTIGATION.

HIGH OFFICIALS INVOLVED.

Charges of Inhumanity at the Dry Tortugas.

LETTER FROM GENERAL SHERIDAN.

Secretary McCulloch Opposed to the New Tariff Bill.

WASHINGTON, December 1.—The Congressional Committee to investigate the cotton and sugar frauds in New York and other Custom Houses will, on Monday, ask leave to remove the seal of secrecy from the proceedings. It is rumored that their report will involve a number of high officials.

The following interesting report has been furnished by the Secretary of War to the Agent of the United States and European Telegraph News Association, in refutation of the charges of inhumanity concerning the treatment of prisoners and soldiers at the Dry Tortugas. It is a full refutation of the charges. It concludes as follows:

The conduct of the officers in each individual case mentioned has been grossly and maliciously misrepresented, but this is not wondered at, considering the source of the report. Immediately after the appearance of the article in question, a search was made in the quarters of the Chicago conspirator, Grubul, and among his papers was found a draft of the same letter that appeared, addressed to Bradly and Johnson, who, it is presumed, forwarded it for publication.

Mr. Grubori is represented as very unreliable, self-willed, rebelliously disposed, and would be, anywhere else, a dangerous man. His word cannot be depended on in the commonest transaction of life, and having been deposed from the position of Gardener, he has since endeavored to place the officers in a very unreliable light before the world, by trumping up charges against them for inhuman treatment of the prisoners in their charges. Charges, which, taking their foundation from the most trivial circumstances, were enlarged and exaggerated to such distorted propositions, as only his low and sordid mind is capable of. His diary shows that he has been in secret communication with rebel sympathy north, and that he has been led to believe that strong measures would be taken to effect his release. His game then, was to draw attention to Portugas and the supposed atrocities there committed, and through the instrumentality of the influence thus to secure his release and enlist in his favor the sympathies of the public. He has miserably failed. I visited the cells of all the prisoners, and their cleanly and orderly appearance spoke well for the care and vigilance exercised by the commanding officer, for the comfort and well being of the prisoners. The prisoners receive the same rations as the enlisted men of the post, are neatly and comfortably dressed, and the labor required of them is of a very light character.

(Signed) P. H. SHERIDAN, Maj. Gen. U. S. A.

Several of the leading free traders state that Secretary McCulloch is opposed to the tariff bill which passed the house last session. He has instructed Commissioner Wells to arrange the new revenue and tariff bills so as to make them uniform in their workings.

Senators from Colorado and Nebraska are here. They have assurance that both territories will be admitted this session.

NEW YORK, December 1.—At the Republican caucus in Washington, last evening, Mr. Stevens gave notice that he should introduce to Congress a bill requiring the President to submit to the Senate all appointments made during the recess, within twenty days after its re-convening; that all appointments rejected shall be eligible for any officer three years; that the President report to the Senate his reasons for removals during the recess, and that by rejection of the Presidential appointee the office shall revert to the predecessor.

A special Washington dispatch says the idea of impeaching President Johnson finds but little favor among Congressmen.

It is stated, but the authority is very unquestionable, that J. Stevens is in Boston negotiating for a fleet of ships to take a large quantity of arms to Ireland.

Twelve million four hundred and sixty thousand dollars have been received up to date, as taxes on account of the city for this year.

The Bermuda *Gazette* says: The second battalion of the "Queen's Own" regiment, sailed for Cork on the sixth.

It was stated that Secretary McCulloch has been selling treasury gold, the past few days.

Some West Canadians held a meeting last evening, favoring the annexation of Canada to the United States, and expressing sympathy with Ireland.

The details of the battle between Paraguay and the allies at Fort Curripaita, show that the fort was only slightly injured. General Flores, after returning to Montevedio, disbanded his troops and resumed his civil functions.

It is stated the Brazilian wounded were murdered by the Paraguayans after the battle.

A special dispatch from Boston says that a committee has been to Portland and made enquiries about General Banks' habit there, and report that their investigations have resulted in sustaining the charge of drunkenness against that gentleman.

WASHINGTON, December 1.—This afternoon the Republican members of the House had a caucus. In the Representative Hall this evening, between fifty and sixty members were present, Thaddeus Stevens presided, Hon. E. C. Ingersoll, of Illinois, acting Secretary. After considerable discussion, a Committee of ten was appointed to report at an adjourned meeting next Wednesday evening, such measures as it will be deemed necessary to urge upon the early attention of Congress.

A resolution was introduced recommending the Senate to reject a majority of the appointments by the President since the adjournment of the last Congress. In the course of the discussion, members related instances of what was termed particular hardships and inconsistency in the removals and appointments. There was some difference of opinion as to the propriety or expediency of this recommendation, but a vote being taken there were no votes in the negative.

Speaker Colfax was unanimously designated to reply to the Address of Welcome at the Loyal Mass Reception, which comes off on Monday, on behalf of the House, the welcoming address to be made by Judge Carter, of the District Supreme Court. It was suggested and agreed that the Senate should be to reply also on behalf of the Senator; that an arrangement be made by Speaker Colfax, and that the Senator so designated for one shall represent both houses.

The indications are that Congress will be a very radical one, and the tone of the speeches were very bitter against President Johnson. The caucus was in session over two hours, and there was a very fair interchange of opinion and a general unanimity of sentiment on the important question. The caucus then adjourned to meet next Wednesday evening, when most of the Republican members will have arrived, to participate in the proceedings.

There has been considerable addition to the number of Congressmen in the city to-day. Among the arrivals to-day are Senator Foster, of Connecticut, President of the Senate, and the Hon. Mr. Boutwell, of Massachusetts. Judge Swann, of the Supreme Court, also arrived to-day.

The preparations for a grand mass welcome to the Republican members of Congress are completed.

A procession composed of the Loyal League, Boys in Blue, Army and Navy, Union and Republican Associations, will organize in front of City Hall at noon, and after marching through some of the principal streets, they will march to the East front where an address of welcome will be made by Judge Carter and responded to by Speaker Colfax and by a Senator yet to be designated, on behalf of the Senate. After the speaking is concluded, the procession will reform and proceed to Four and a half street, where it will be dismissed. The banquet in the evening will take place in the Fair Building, at the corner of Seventh street and Pennsylvania avenue. Extensive preparations are being made to make it a grand affair.

General Hiram Walbridge, of New York, will preside. Among the speeches to be made in response to toasts, the following have already been arranged: "The Government of the United States" will be responded to by Senator Howe, of Wisconsin; "The Judiciary of the United States," Judge Fisher, of the District of Columbia; "Suffrage in the District of Columbia," Hon. W. D. Kelly, of Pennsylvania; "An Independent Pulpit," Rev. Dr. Sunderland; "Our Free Schools System," Rev. Dr. Boynton, Chaplain of House; "The Loyal Press," Colonel John W. Forney; "The Loyal Citizens in the Rebel States," Hon. Charles Sumner; "The Thirty-ninth Congress," Senator Fessenden, of Maine, and Hon. Thaddeus Stevens; "The Loss and Cost of the Rebellion," Hon. Henry Wilson, of Massachusetts.

WASHINGTON, Nov. 1.—By the Department: Major General David Tillson, Assistant Commissioner of Freedmen for Georgia, and Major General R. K. Scott, Assistant Commissioner for South Carolina, who were to have been mustered out to-day, December 1st, are to be retained in the service until further orders.

Brevet Lieut. Col. James A. Bates, Captain of the 7th regiment V. R. C., and Captain N. B. Blanton, of the 9th regiment V. R. C., have been honorably mustered out of service.

There was received at the Treasury this week, from the printers, fractional currency amounting to $425,000. There was shipped, during the same time, to National Banks, $12,-809,707; to the U. S. Depository in Chicago, $50,-000. Total, $17,866,707.

Dispatches have been received at the Navy Department to-day, from Capt. Wm. B. Reynolds, commanding the U. S. steamer Lackawana, under date of October 15th, from Monterrdes, announcing his arrival at that place. All were well.

Rear Admiral Gordon, commanding the South Atlantic Squadron, under date of October 26th, reports the arrival of the United States steamer Monocacy at Rio Janeiro. Commander E. Simpson, commanding the U. S. steamer Mohican, under date of October 17th, reports his arrival at Maranaham, Brazil, thirteen days from Barbadoes.

The receipts of Internal Revenue to-day, were $1,669,943 85; gold held by the Treasury to the amount of $95,000,000, of which $23,500,000 is on gold certificates.

Two hundred and thirty-five patents will be issued from the Patent Office, for the week ending Debember 1st.

Transcripts, embracing swamp tracts in California, amounting to over 55,000 acres have been submitted to the Secretary of the Interior, for his approval, as a preliminary step for issuing patents for the same to the State.

The Hon. F. C. Beaman, of Michigan, called on General Spinner, United States Treasurer, to-day, and paid back into the Treasury over five hundred dollars received during the last three years for mileage as a member of Congress in excess of what he believes to be just, although the amount he received was computed according to the present Congressional estimate of mileage.

This morning two checks, given by cadets at West Point, previous to the war, who subsequently joined the rebels, were presented at the Treasury for payment. The matter was referred to the Secretary of War, who decided the checks should not be paid, but cancelled, and the amount returned to the appropriation from which it was drawn.

No definite action will be taken at the Republican caucus to-night, as many members are still absent.

Secretary Seward has not yet received any answer by cable to his long dispatch to Minister Bigelow, directing him to remonstrate against the delay in recalling the French troops from Mexico. It is anticipated that Louis Napoleon is not likely to be satisfied with the energetic tone of Mr. Seward's dispatch, much as he may desire to get out of the Mexican scrape.

There will be a warm struggle between the Executive and Legislative branches of the Government for the control of the entire Revenue Department with a view to the possession of the spoils of office. The Republicans will, therefore, attempt to detach this department from the President's control. With this view, Judge Kelly, of Philadelphia, is preparing a bill to substitute

WASHINGTON, December 1.—The Treasurer's report will exhibit the gratifying fact that the public expenditures for the fiscal year ending June 30, 1866, are about one hundred and fifty million dollars less than for the last year of the war, ending June 30, 1864, showing that while the expenditures were increasing rapidly from 1861 to 1865, they have already begun to decrease quite as rapidly, thus verifying the prediction in General Spinner's last annual report, that from that time the expenditures would steadily recede from the highest point then reached.

EROM SAN FRANCISCO.

Great Distress at Yeddo.

MARINE DISASTER--MANY LIVES LOST.

Dismissal of Government Officers.

SAN FRANCISCO, Dec. 1.—The Brig Alert from Yokohoma, of Oct. 27th, brings two hundred cases of tea, and three hundred and forty-five cases of silk worm eggs.

A suspension of hostilities is reported between the belligerents, but the causes is not known.

Continued distress prevails at Yeddo. Two hundred men, women and children went to the Public Temple for succor, and about fifty visited the residences of rich lumber merchants and demanded each a sack of rice, promising to pay when the prices fell. This is cited as a proof of the extreme destitution prevailing.

A large meeting has been held at Yokahoma to devise means to remedy the uncurrent condition of the Mexican dollars, which has hitherto been the current coin of the country.

The Dutch Brig Duodecimo, is reported lost in Van Dieman's Straits, having seventy persons on board. No Europeans, and only three Japanese escaped. No date is given

The United States steamers Hartford and Wyoming were at Yokohoma.

The Panama steamer, which sails to-day, takes an invoice of Japanese tea for Terre Haute, Indiana. Among her passengers are: Gen. W. B. Hagen, H. W. Corbett, United States Senator elect from Oregon, and Capt. Baby, of the Pacific Mail Steamship Company.

Orders have been received from Washington to dismiss from office Cornelius Stagg, Deputy Inspector of Internal Revenue, and J. W. Jermedy, Inspector of Liquors.

Fourteen thousand five hundred entries of public land have been made during the past month at the United States Land Office in this city.

The winter rains set in early, and the country is clothed in green.

Democratic Meeting.

NEW YORK, December 1.—The Democrats held a meeting at the Coopers Institute tonight. Addresses were made by A. Drakey Hall, Mayor Hoffman and others. The local election of Tuesday next is exciting very little interest.

This afternoon, Patrick Harrington and Thomas Mullen, laborers, employed in the New Herrold building, quarrelled, when Harrington threw Mullen into the cellar and injured him so severely, that he died shortly afterwards.

The total registry in the city, which was completed at nine o'clock this evening, gives us a total of over 128,000 registered electors.

River and Weather at Louisville.

LOUISVILLE, Dec. 1.—The river is rising, the falls are navigable: nine feet three inches at the canal. Mercury 33 degrees.

LOUISVILLE, December 2.—The steamer Sam Merwin is still on the falls. The steamer William Butler, from Cincinnati to New Orleans, heavily laden, is also on the falls. Both boats are being lightened, but the falling river, it is feared, will seriously damage the boats.

There is seven feet water over the falls.

FINANCE AND TRADE.

SATURDAY, December 1, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 140¾; 1881's, 112⅝; 5-20's old, 108⅛; do '65, 107½; 5-20s, new 108⅛; 10-40s, 99⅞; 7-30s, first series, 105; second series 105. Michigan Southern R. R., 81¼; Cleveland & Pittsburgh, 85; Pittsburgh, Fort Wayne & Chicago, 105½; Chicago & Rock Island, 104⅞; Reading 112¼; Chicago & Northwestern, 44¼.

The Eastern stock board, it will be noticed, is heavier to-day. Gold is off a little, as are Governments also, while Railways are sensibly weaker, though quotations are maintained. Uncertainty prevails and will do so until after the meeting of Congress, and the Secretary's report has been read and digested.

Our local market is barren of special interest. The better class of shares hold their own remarkably against a close money market and lower figures on Governments. Bank shares are, in general, bringing better prices than they did two weeks ago when Governments were 3 to 5 per cent higher. We report sales of old Bank of Pittsburgh to-day at 67—with inquiry for most of the other Bank stocks at fair prices. We could hear of no transactions in Gas or Bridge stocks. Monongahela Navigation Bonds sold during the week at about 91¾. Columbia oil changed hands at 15¼. Sales of Triumph oil to-day at 1,05.

—General trade continues excessively dull, purchasers holding with a timidity unknown for many years. There seems to be a deep seated conviction among business men and their customers that the Secretary of the Treasury will be able to announce in a few months a resumption of specie payments; consequently they are but little disposed to contract debts in a depreciated currency which must be paid in one of far greater value. Speculators for an advance should not forget that they are now buying, not in the face of an increasing volume of currency, as in 1863 and 1864 or as in the early part of 1865, with a currency nearly stationary, but against a currency steadily decreasing by the the action of the treasury, and that, too, in a form which must force contraction upon the banks and all trading upon borrowed capital. The banks are already contracting and an examination of the last statement will show that they are now in a position, when at any moment they may be obliged to make large sacrifices to promptly meet their deposits.—*Phila. Press.*

New York Financial Matters.

NEW YORK, December 1.—The Money market is easy and steady, at 5@6 per cent. Sterling is firm, at 109¼@109¾. Gold is rather firmer, opening at 141⅛, advancing to 141⅜, declining to 140⅞, and closing at 141¼. Government Stocks are firm.

The *Commercial* reports business on Wall street as dull, Gold weak, at 140⅞. The steamers sailed to-day for Europe with $448,000 in gold. Money easy; rate 5@7 per cent. Stocks ¼@½ per cent. lower after Board.

The *Post's* money article says: The loan market shows symptoms of growing ease as to call loans and of growing interest in commercial credits. Current rates for demand account. So great is the abundance capital that large amounts are left with the brokers at lower rates, and the disinclination of capitalists to buy commercial paper freely is one of the causes which tends with others to increase this plethora of capital seeking employment on call for choice bills. The rate is 7 and 8c. The stock market is dull and view the opening of Congress and the general incertitude of financial affairs, very little business is doing.

Governments are dull, except the new '65s, which have advanced to 108⅛, in consequence of the change in the rule for conversion which goes into effect to-day. Heretofore the owners of Seven-Thirties have received in exchange therefor a Five-Twenty bond, buying the January coupon. For the Gold coupon currency was paid. Now the January coupon is cut off, and the holder of the Seven-Thirty note receives his interest up to the 1st of January at 7 3-10 per cent. If the August bonds were bought at 105, the bonds will cost under the new arrangement 104⅞ ex-coupon, and the bonds which before were coupon, thus would be worth in the market 108⅛. If Gold sells at 144. Sizes of 1881 are more in demand, as are also the Ten-Forties and Five per cent. bonds, Railroad shares are irregular and rather lower.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 1, 1866.

There is no improvement to note in the general tone of the produce markets. The receipts of Flour and Grain continue large, and with a demand restricted to the most pressing wants of the trade, stocks are accumulating, and as the tendency seems to be toward a lower scale of prices, buyers, to use a common phrase, are few and far between. The Provision trade amounts to almost nothing, though, the stock of old meat is about exhausted, and the new crop is not yet ready for market. In Groceries, too, there is but little doing, both consumers and retailers restricting their purchases as much as possible, in anticipation of a still further depreciation in values, and, indeed, the same remarks will apply to many other articles we might mention.

GRAIN—Wheat continues very dull, and it is impossible to give accurate quotations, in the absence of sales. Oats dull, with a supply considerably in excess of the demand; may be quoted nominally at 48 to 50, on track. Sale of 1 car New Corn at 60, and 500 bushels, in elevator, at 65. Rye is in demand; we can report a sale of 2 cars at $1,25, and small lots at $1,28 to $1,30. Barley is quiet and nominally unchanged.

FLOUR—Continues dull and neglected, and even the local and retail demand seems to be falling off. Prices, however, remain unchanged, and we continue to quote at $11,75 to $12,25 for good to choice brands of Spring Wheat; and $13 to $13½ for Winter Wheat, and $14 to $16 for fancy brands. Rye Flour is selling at $8½; Buckwheat at $4 per cwt, in first hands, and $4½, in store.

PROVISIONS—Bacon is very dull, and prices are entirely nominal—14½c to 15c for Shoulders, and 16 for Ribbed Sides. Lard is dull at 14½. No demand for Mess Pork, and but little in market.

POTATOES—Peach Blows are in good demand and prices are well sustained; we can report regular sales in store at 90—sale of 1 car load, on track, at 87½. Jersey Sweets, $5 per bbl.

APPLES—In good supply but without quotable change—$2¼ to $3¼ for fair to choice. Sale of 2 cars prime at $3; and 1 car choice at $3¼—all to go to Philadelphia.

BUTTER—Continues very dull, and with a very limited demand and liberal receipts, prices are tending downward. We can report sales of Roll at 25 to 30 for fair to prime.

EGGS—Continue steady, though the extreme price has a tendency to restrict the demand. Sales in a regular way at 38.

CHEESE—There is no improvement to note in the demand, and while the market is very dull and the supply large, prices have undergone no change.

DRIED FRUIT—Sale of 18 barrels Peaches (quarters) at 18. Prime halves quoted at 22 to 23. Apples dull and nominal at 9½ to 10½.

SEEDS—Flaxseed is in steady demand at $3 to $3,10. No movement in Clover or Timothy Seeds.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, December 1, 1866.

CRUDE—The market for Crude has ruled rather dull and unsettled throughout the past week, and, compared with the early part of the week, prices are a shade lower. We now quote at 9¼ to 10, in bulk and barrels returned, and 14½ to 15, bbls included, against 10 to 10½, and 15 to 15½ early in the week, showing a decline of fully half a cent per gallon. The sales reported to-day were as follows: 5000 bbls, to arrive, at 9¾; 2500 do do at 9¾; 1000 do do at 9¾; 2000 bbls, in tank, (good gravity) at 10; also, 60 bbls (heavy oil) at 17, packages included. As the river is again in fine navigable condition, the receipts next week will doubtless be liberal, though, we do not look for as big a run as usual, from the fact that the market holds out no inducement to encourage dealers to buy very freely. The eastern markets continue dull, though nominally unchanged.

REFINED—There are no new features in in the market for bonded oil worthy of special notice. The demand continues rather light, and as all hopes of an advance appear to have vanished, for the present at least, there are more sellers, and, compared with the early part of the week, prices are a shade lower. We can report sales of 1500 bbls for immediate delivery in Philadelphia, at 32½ cents; 500 do do at 32 cents; 500 barrels to be delivered between the 1st and 15th of January, sellers option, at 27½, free on board cars here; and 800 for December, on private terms. We quote nominally at 33, for December delivery in Philadelphia, and 34 for January and February, though, it would doubtless be difficult to obtain these figures. We are cognizant of offers to buy at 34 for March, and it is said that there were sales effected in Philadelphia at that figure. Free Oil is dull, and prices are entirely nominal.

ARRIVALS—The following arrivals were reported to-day:

Aladdin Oil Co.	3000	Fisher & Bro	1000
Barbour & Co.	37		

Total	4037
Total Receipts for the week	35,649
Total Receipts last week	75,649
Total Receipts since Jan. 1	1,616,427

St. Louis Market.

ST. LOUIS, Dec. 1.—Tobacco dull; common leaf, 5@11½c; good to fine leaf, 15@30c. Cotton dull and lower at 29½c. Flour extremely dull and demand small. Wheat choice grades better; for prime fall, $2,50@2,60; for choice, 2,65@2,70. Corn heavy and unsettled; new 80@90c; old 90@1,00 and market closed at about 5c lower. Oats opened higher at 58@64c but closed 60@62c. Provisions dull and unchanged. Whisky dull at $2,25. Hogs firm at $5,75@6,15 and extra fine $6,25@6,50.

Cincinnati Market.

CINCINNATI, Dec. 1.—Flour very dull, at $9 50 @10,00. Whisky steady. Hogs; light supply and prices higher, closing at 6½c gross, and 7¾c net; receipts of 3,500 head. Green meats advanced to 6@7¼c and 9½c, with but few offering. Lard dull at 12½c. Bacon dull; clear sides 14c; shoulders 13½c. Gold 140½.

Weekly Review of the New York Wholesale Market.

NEW YORK, December 1.—There has been a heavy depression in general trade, and prices of nearly all staple articles have declined. Distrust exists in every quarter, and dealers buy sparingly, apprehending a still further contractness of the currency. No new failures in the provision trade are reported this week. There has, however, been a greater variety of cereal crops exported during the week than in any similar period for many years. Breadstuffs have generally declined, but the fall is greater in flour, which has arrived more freely. The stock has been added to materially, and is now 400,000 bbls against about 700,000 bbls last year. The consumption has fallen off. The fall is from 50 to 75c per bbl on medium and high grades; extra State closes at $9,80@11,20; shipping Ohio $11@11,10, and St. Louis extras from $13 to 17. Wheat has also been depressed, although at the concession of from 8 to 10c there are buyers for export—a new feature in the market. This week the stock has increased somewhat, and is now estimated at 1,300,000 bush against 2,500,000 last year. At the close there was a fair demand for Rejected Spring at $1,85@2,05, No. 2 Chicago Spring $2,15@2,25, No. 1 is nominal at $2,40, and $2,85@2,92 for Amber, and $3.15@3,50 for White Michigan. The Corn market has been very variable and excited at times, influenced by the news from Europe and the rapid decline in gold. The decline for the week has been about 12c per bush, prices closing at $1,18½@1,19 for Old Mixed in store; New Yellow is more plenty and is selling at $1,05@1,08. There is no demand for Meal. Oats are freely offered and have declined, influenced by the unfavorable news from Europe. The export demand has been fair for Old Western. The quotations are 63@64c, and 65@65½ for New State. Rye has been in moderate request, and prices are unsettled at a decline of 8@10c, the market closing quiet $1,00 for old western, $1,22@1,23 for new western, and $1,25 for Canada. Barley has been in fair demand for export, and has fluctuated with the foreign news, closing 5c lower. We quote western at 85@90c; Canada 95c@$1,00 bonded, and $1,15@1,20 free, and State 95c@$1,18. Provisions are irregular and variable, and there is less speculative feeling. There is a fair business doing in pork, with a considerable demand. The stock has increased slightly. There are 55,000 bbls against 53,000 a month ago. The closing price for old mess was $21,50 cash and regular, and new, $22,00@22,25 and $22,50. Lard increased in price 1c per lb this week, but the improvement was not sustained at the close, and prices are a shade lower, at 13c for city, 13½c for steamed, and 13¾c for kettle rendered. Hogs advanced materially 2 cents per pound, but closed lower at 9¾ to 10c for city dressed; the receipts are light. Bacon has been in greater demand in part for the forward declining prices, and nominal at 10¾@17c for Cumberland, and 13¾@14½c for short ribbed; 13@13½c for short clear. The butter market has been extremely dull; the stock has increased, prices fallen and some holders will not be disappointed if they lose; twenty thousand lbs of good dairy butter sold to-day at 40c, and some common western as low as 14c; the best butter sells at retail at 46@50c. In cheese the business has also been very limited; the stock has been greatly increased; 20,000 boxes have arrived this week; prices have declined ½c per pound for prime, Factory Cheese sells from 14 to 16c; the stock on hand is estimated at 100,000 boxes. The decline in gold and the fact that Bacon is very plenty and cheap are the chief causes of the fall. Business in Brazil Coffee has been very limited and prices have declined, fair to prime Rio is quoted at 17½ to 19½c, gold. In Molasses the business for distilling purposes has fallen off greatly, and but few men are buying; 2,000 hogsheads a day used to be sold frequently in small lots for distilling, now the sales for that purpose would be 50 hhds a day; the quotations are 55 to 65c for Cuba Muscovado, 50 to 52c for Cuba clayed, and 60 to 75c for Porto Rico, new crop; N. Orleans held at $1,25@ gallon. The Whiskey market is greatly demoralized and scarcely anything is doing; prices close at about 40c in bond. Very few honest buyers are operating. There have been sales during the week at from $1,60 to $1,80 a gallon. This Whiskey paid no tax. Business in Cotton early in the week was quite active, chiefly for export, though there was so ue for investment, but with less favorable news from Europe, a decline in gold, and an easier money market, prices fell off and closed heavy, with considerable abatement in the demand. We quote at 35½@35½c for Middling Uplands, and do. for New Orleans.

New York Dry Goods Market.

NEW YORK, Dec. 1.—The *Commercial* says: There is more animation in the dry goods trade to-day than for several days before. Unexpectedly there were more buyers in the market yesterday afternoon and this morning than at the last of the week, and so soon after a holiday, would naturally have suggested whether this is any indication of the trade for this month, or merely one of these favorable irregularities cannot be told. Goods are about as low as they can be made, and perhaps buyers have become convinced of it and are preparing for the winter trade. The steadiness in prices for some days has been quite remarkable in the absence of a demand, but it is accounted for from the fact that the production is now light and of leading goods. Stocks are not large. The Woolen Goods marked continues dull, however, and there is little change to note. There is a light demand looking to the spring business, but it is as yet very irregular. The following are some of to-day's quotations: Brown Sheetings, 18, A, 20½; Amoskeag, A, 21. Bleached Sheetings and Shirtings—New York Mills, 42½; Wamsutta, 37½; Amoskeag, A, 29. Prints—17½; A, 19. Brown Drills, 20@25. Denims—Amoskeag, 42; York, 41; Monitor, 22.

New York Produce Market.

NEW YORK, December 1.—Cotton quiet and steady; 33@34 for middling uplands. Flour dull and 10@25c lower; $7,50@10,25 for extra State; $10@11,25 for extra round hoop Ohio, and $11,30@13,10 for trade brands, the market closing heavy. Wheat 1@2c lower and somewhat heavy; $2@2,25 is the outside price for very good No. 2 Milwaukee. Barley is heavy and drooping. Receipts of corn—43,650 bushels; the market is heavy and 1@2c lower; $1,18@1,19 for shipping mixed western in store and afloat, closing at the inside price. Oats heavy at 61@63c for Chicago and Milwaukee. Pork heavy and declining; $21,75@21,50 for regular and cash for old mess, closing at $21,37 for cash; $22@22,25 for new mess, and $19,50@20,50 for prime—total stock of old, December 1st, 1866, 55,033 barrels. Beef heavy—total stock, old and new, December 1st, 1866, 22,033 packages. Beef hams heavy at $25@30. Bacon quiet. Cut meats heavy; 9@10½c for shoulders, and 12@13½c for hams. Dressed hogs lower; 9@10c for western. Lard lower at 12@13½c; small parcels at 13@14c. Butter and cheese dull. Coffee dull at 16½@11½c. Molasses dull. Petroleum dull; 21c for crude, and 33@34c for refined in bond. Whisky quiet and unchanged.

Toledo Market.

TOLEDO, Dec. 1.—Wheat quiet and unchanged; sales of amber Michigan at $2,73; No. 1 red Wabash $2,75. Corn dull; No. 1 lower; sales of No. 1 mixed at 80c. Oats unchanged at 41c. Rye quiet at $1,10.

RIVER NEWS.

The river commenced to recede on Saturday, and was still receding steadily last evening, with about eleven and a half feet in the channel. The Allegheny was falling at Oil City on Saturday forenoon, with eight feet in the channel at that point. The weather yesterday was clear and pleasant.

The Bayard, from Parkersburg, is the only arrival we have to report. The Maggie Hays, from Cincinnati, was due last night, and will doubtless be found in port this morning.

The Columbia and Glendale arrived at Cincinnati on Friday, and the Leonidas was advertised to leave for Pittsburgh on Saturday. The Kate Putnam en route from St. Louis to Pittsburgh, passed Evansville on Friday last.

COAL ARRIVED.—The unrivaled towboat Sam. Roberts came in early yesterday direct from Pittsburgh with a tow of about 70,000 bushels of coal for this market. She delivered the coal, and is now on her way back again to Pittsburgh with a fleet of empty barges. This is her second run on the late rise.—*Louisville Courier, Friday.*

The Quickstep left for Cincinnati on Saturday evening, with a fair trip, as did also the Julia. The Argonaut cleared for St. Louis, with an excellent freight list, including a considerable amount of railroad iron.

The Argosy left Cincinnati for Pittsburgh on Friday, and the Leonidas was to have left on Saturday. Captain M. A. Cox, formerly of the Brownsville packet Fayette, is in command of the Leonidas. The Savanna and Kate Putnam, from St. Louis, are en route for Pittsburgh. The former boat left St. Louis on Saturday last, and the latter on Monday. The Savanna, we understand, has a barge in tow.

Our coal men were busily engaged on Saturday in getting their coal, barges and boats in readiness to go below, and about all the tow boats that are here, with the exception of one or two, that are undergoing repairs, will get out, including the Grand Lake and Mary Ann, both new boats. The Hornet is having some repairs made on her boilers, and the Stella is on, or will go, on the dock. The following boats have already gone or will get out on the present freshet.

CINCINNATI.—Coal Valley, 100,000 bushels; Whale, 160,000; Leopard, 75,000; Coal City, 100,000.

LOUISVILLE.—Lioness, 120,000; Lion, 100,000; Alps, 100,000; N. J. Bigley, 75,000; Grand Lake, 120,000; Coal Hill, 100,000; Collier, 100,000; Bengal Tiger, 100,000; J. S. Neal, 75,000; Dolphin, 75,000; Warner, 104,000; Mary Ann, 80,000; Tom Rees, 75,000. The "run" will stand about thus:

	Bushels.
Cincinnati	375,000
Louisville	1,114,000
Total	1,489,000

There are quite a number of tow boats on the way up from Cincinnati and Louisville, and it is possible that some of them may reach here in time to get out again on the present water, provided they are successful in picking up a tow. It is said, and we have no doubt it is true, that there will be but little coal left after all the boats get out.

The Ida Rees, Capt. Jos. Brown, is announced for Cincinnati and Louisville. This boat has recently had some important alterations and improvements made, which will add greatly to her appearance.

The Importer dropped down to the point on Saturday to take on railroad iron for St. Louis, for which point she will leave some time during the present week.

The Wananita, in command of Capt. Thos. Shuman, is in turn for St. Louis, and will at once commence loading for that point. She is an excellent boat, and has excellent accommodations for passengers.

The Bayard, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at noon. Capt. Dan Moore has charge of the office.

Work is rapidly progressing on Capt. Donaldson's new steamer Great Republic, and she will doubtless be completed and ready for business early in the year 1867. The nearer she approaches completion, the prettier she looks, and while she will no doubt be the swiftest, she will also be the handsomest steamer afloat on the western waters. That she is larger than any of the lower river boats is now conceded, even the Louisville *Courier* acknowledges this point.

Capt. R. C. Gray's new side-wheeler for the Northern Line Packet Company, of St. Louis, is rapidly approaching to completion.

We learn that N. B. Gwathmay, a collector in the employ of the St. Louis Packet Company, at Memphis, has fallen heir to £11,000 by the death of an uncle in England.

We are informed (says the Cairo *Democrat*) that in view of the dangerously low stage of water now rapidly approaching, and the prospects of an early "freeze-up" in the Upper Mississippi, underwriters have notified steamboat owners that they will no longer insure boats which navigate that river above Cairo. Their experience last winter with the ice at St. Louis and the above taught them a lesson which they evidently intend to profit by in the future.

The St. Louis *Democrat*, of Tuesday says:

Capt. George Baker, of Pittsburgh, will have the Sherman in port this morning. The Sherman will go to the Arkansas from this port. ......The Minnie made one trip to Chester, and Captain Shaw now loads her for Cincinnati and Pittsburgh...... The Virginia came in unexpectedly from Cairo. She was going to Louisville, but a dispatch from Evansville made her come this way to load in her turn in the R. R. Line. Her clerk, Mr. John Greenough, has abandoned steamboating, and goes on the Lizzie Gill to Vicksburg. He has accepted the position of cashier of the city bank of that town. We hope he will find his new position pleasant.

The St. Louis *Democrat* of Wednesday says: "Winter one day nearer. More boats from the upper rivers to return no more this year. Stimulated by the increased rates on Southern freights, several upper Mississippi and Missouri river boats will load for New Orleans, some of them with loaded barges in tow. Two boats have arrived from Nashville, and report poor prospects for St. Louis boats in that direction. One boat has withdrawn from the Arkansas, which trade is at starvation point, to load for Pittsburgh.

CONSUMPTION.

Our son JAMES PAINTER, some three years ago was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians who all agreed that he must die with the disease. I brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

PITTSBURGH, December 8.
A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.
PITTSBURGH, January 11, 1866.
DR. KEYSER:—My wife has been afflicted with a dry cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WHOOPING COUGH.

Below will be found a certificate from Doctor M. Dupuy, one of our most respectable dentists, in regard to Dr. Keyser's Pectoral Syrup. The Pectoral Syrup is also an infallible cure for every form of cough and cold to which we are liable.
PITTSBURGH, June 23, 1863.
DR. KEYSER:—Dear Sir: I have for a long time been opposed to advertised or patent medicines, and it is with reluctance that I recommend any of them. The consideration, however, that I am doing the community a service, induces me to overcome my objections, and to publicly recommend your Pectoral Syrup. We have kept it in our family for the last five or six years, and have given it for coughs, such as are produced by colds, &c., with the effect of alleviating or entirely arresting them. During last winter our children were exposed to the infection of whooping cough, and each one of our three boys was attacked with what we believe to be that malady. We administered your Syrup liberally, and the result was, that the whooping cough lasted with neither of them more than ten or twelve days. I hope others will at least make a trial of your medicines in such cases, as we have found it beneficial. Yours,
M. DUPUY, No. 21 Wylie street.

HERNIA OR RUPTURE.

It will be observed that we have published for some time past an advertisement of Dr. George H. Keyser, of 140 Wood street, Pittsburgh, Pa., in reference to Trusses and other mechanical appliances for the cure and relief of hernia, or rupture, besides various broken down conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of hernia or rupture, so perfect in its parts, and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.
He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, 140 Wood street. Office hours from eight to eleven A. M. and one to four P. M.

DEAFNESS AND THE EAR.

Many persons have rested content in the belief that skin and ear diseases, however troublesome will wear out of themselves, or that no remedy will avail in effecting a cure; in this way many persons have suffered through some half dozen years, who might easily have been relieved at the onset in a few weeks. So also with regard to the ear, a prejudice has obtained that the ear is too delicate an organ to be treated, or as is often expressed, *tampered with*; hence hundreds have thus remained deaf for the greater part of a lifetime, who might have been greatly relieved, and in many instances, completely restored to their hearing, had proper assistance been timely applied for, as may readily be seen by a perusal of the following certificate. We also take occasion to remark that the testimonial comes from a source close at hand, in Allegheny City, where, upon inquiry, any one interested can satisfy themselves of its truth:
PITTSBURGH, July 26, 1864.
DEAR SIR:—I take pleasure in adding my testimony to that of others in favor of Dr. Keyser's treatment of deafness. My son had been afflicted for five years with deafness produced from scarlet fever. At times he could not hear at all; and could only understand as we would motion to him. His speech had also become affected. Having tried other remedies without receiving any benefit, I applied to Dr. Keyser, and under his treatment he has entirely recovered, and can now hear as well as ever he did.
